*Problem solving skills

Project | <https://github.com/shaik-ar/Project>

Full Project in Excel with E-Commerce Sales Interactive Dashboard

Developed an interactive E-Commerce Sales Dashboard in Microsoft Excel using Pivot Tables, Pivot Charts, and Slicers to analyze sales trends, customer behavior, and business performance.

Project | https://github.com/shaik-ar/Project/blob/main/Zepto_SQL_Project.sql

Zepto Product Data Analysis using PostgreSQL

Analyzed Zepto product data using PostgreSQL by creating the table, cleaning missing and invalid values, identifying duplicate products, converting price values, and performing category-wise analysis on stock, discounts, pricing, and inventory patterns using SQL queries.
